

Playing a DVD on the PC:

1. Click "PC" on the classroom touch panel.
2. Log in to the PC with your SacLink username and password.
3. Click the volume button in the bottom left corner. 
4. Drag the slider all the way to the right to turn the volume up.
5. Put the DVD in the PC's DVD tray.
6. Click the Windows button in the bottom left corner. 
7. Type "VLC", you can just start typing, you don't have to click anything else.
8. Click on "VLC media player".
9. Once VLC opens, click "Media" in the top left of the program.
10. Click "Open Disc".
11. Click "Play".

Watching long videos:

- When watching videos or movies on a PC, use the mouse jiggle program. This will stop the PC from going in to sleep mode. 
 1. Click on the Windows button in the bottom left corner of the screen.
 2. Type "Mouse Jiggle".
 3. Check the box next to "Enable Jiggle".
 4. Make sure to log out or restart the PC when you are finished with your class.
