# Classroom Instructions

- **Power projector**: Press once to turn on Projector. Press again to turn Projector off. A pop-up will appear to confirm shutdown.

- **Mute**: Audio/video mute button, press once to mute the video on the projector and the audio from the speakers, press again to unmute.

- **Inputs**: Selecting an input will switch to that source device.

- **Volume Up/Down**: Increases and decreases system audio.

- **Camera Presets**: This button will open a menu with camera presets to position the ceiling camera in the room.

- **Camera Preset 1**: This will provide a close-up of the podium.

- **Camera Preset 2:** This will provide a wider image including the podium and a portion of the whiteboard.

- **Camera Preset 3:** This will provide the widest image encompassing the full whiteboard/front of the class.

Note*: The camera will capture the projector screen if down.
