

## ShareLink Instructions:

ShareLink is a device that allows you to wirelessly display your laptop. ShareLink is device agnostic, so it can be used with almost any device (Windows laptop, Apple laptop, iPad, tablets, iPhones, Android phones, etc.). You can connect by downloading the ShareLink application or using Airplay if you have an Apple device. Both professors and students can connect wirelessly.

## Airplay Instructions

1. Make sure you are connected to Sacramento State's Eduroam WiFi.
2. Press the ShareLink button on the touch/control panel.
3. Click the "Screen Mirroring" button on your Apple device.
4. Find the name of the ShareLink you are trying to connect to.
  - a. The name will be displayed on the ShareLink splash screen.
  - b. BUILDING-ROOM-SLK
5. Type in the code displayed on the ShareLink splash screen.
6. To stop sharing your screen, press the "Screen Mirroring" again, then press "Stop Mirroring".

## Laptop Instructions
